

5878

WIRELESS REMOTE KEYPAD

FC

Honeywell's easy-to-operate, quick install wireless solution provides convenient fingertip control of alarm systems, lights or garage doors. The 5878 performs the same functions as other four-button keyfobs while

providing the added convenience of two extra buttons to control lamp modules and a two-button panic. It is compatible with all 5800 Series Wireless Receivers.

FEATURES

- Six buttons, eight loops
(Two serial numbers with four loops)
- Sleek, super thin design
- Mounts to single-ganged box
(screws included), double-sided
tape (included) or hides in a drawer
- LED flashes to confirm that
signal has been sent
- User replaceable lithium
coin cell battery included
- Extra buttons make it easy to
control lamp modules
- Extra button inserts for
easy customization
